Jmik Thang

Summerville, SC — Portfolio — GitHub — LinkedIn — jmikthang5@gmail.com
Open to Remote & Relocation

Professional Summary

Full-stack developer with experience building and deploying web applications using React, Node.js, Express, and PostgreSQL. Experienced in authentication, content management, and REST API integration, with hands-on software engineering externship and collaborative team development experience.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend: React, React Router, Context API, Tailwind CSS
Backend: Node.js, Express.js, REST API Development, JWT Authentication
Databases & Services: PostgreSQL, MongoDB, Prisma ORM, Cloudinary
Development & Deployment: Git, GitHub, Render, Netlify

Experience

Fox Finance — Software Engineering Externship Nov 2025 – Jan 2026
Software Engineering Extern — Remote

- Built responsive React components and integrated REST APIs to display dynamic financial data.
- Collaborated through GitHub and delivered reusable components in a team development workflow.
- Improved usability through responsive layouts and consistent component design.

Projects

Chinlung Today — Full-Stack News Platform Live Site — 2026

- Built and deployed a news publishing platform with React, Tailwind CSS, Node.js, Express, and PostgreSQL.
- Developed a JWT-protected admin workflow for managing articles and uploading images through Cloudinary.
- Built category-based browsing and related-story sections with responsive layouts for desktop and mobile.

1989 Book Summary App — Full-Stack Application Live Demo — GitHub — 2026

- Built and deployed a full-stack platform using React, Node.js, Express, and PostgreSQL.
- Implemented JWT authentication, admin CRUD controls, comments, search, categories, pagination, image uploads, and view tracking.

News Explorer — Full-Stack Application Live Demo — 2025

- Built a news application with JWT authentication, protected routes, article saving, and News API integration.

Lovers Slow Jamz — TripleTen CodeJam Winner 2025

- Collaborated with a team to build a playlist-driven date planner recognized for innovation and user experience.

Education & Credentials

TripleTen 2025
Full-Stack Software Engineering Certificate

- Completed an intensive software engineering program covering frontend and backend development.
- Built applications using React, TypeScript, Express, PostgreSQL, MongoDB, authentication, and REST APIs.
